## What can I use this guide for?

This guide provides more insight into the world of para athletics, a sport with so much to discover!

Do you have little or no knowledge of para athletics and the different classifications yet? No worries, you can read all about it in this guide.

During the FBK Games, athletes from different para-athletics classifications compete against each other in the same event. Results are not adjusted based on classification; instead, rankings are determined solely by the actual finishing order or performance achieved. This creates one overall classification for the event. Any records achieved within the individual classifications are, however, officially recognised and recorded as such.

Check out the information in this guide to follow the competitions even better.

## FBK Games x Reggeborgh Foundation

FBK Games and Reggeborgh Foundation are strengthening their collaboration to further develop the para athletics program. In the lead-up to the FBK Games on June 21, 2026, they spoke with para athletes and the national coach about how the program can continue to grow.

Among them were Paralympic and world champion shot putter Lara Baars and World Championships silver medalist long jumper Kiki Hendriks. Together, they held an open discussion about the future of para athletics within the FBK Games.

### Increasing exposure

During the interactive session, athletes shared their experiences and ideas on how to further enhance their competition experience, improve spectator engagement, and increase the exposure of para athletics. Topics discussed included strengthening the quality of the field, improving visibility and promotion, and providing clearer explanations to spectators about the different classification categories.

The insights gathered during the discussion will be taken into account by the FBK Games organising committee and the national para athletics coach as part of the preparations for the FBK Games on 21 June, as well as for future editions of the event.

With this collaboration, FBK Games and Reggeborgh Foundation are committed to giving para athletes the stage they deserve. Ellen van Langen, meeting director of the FBK Games, said: "Including Paralympic events in our program during the previous edition of the FBK Games was highly successful. The collaboration with Reggeborgh Foundation and the inspiration from para athletes make us enthusiastic about further expanding the Paralympic program."

Together, they are building a program that strengthens athletes, brings the audience closer to the sport, and contributes to the further growth of para athletics.
